

- Sphere bollard suitable for pole, pillar, wall application and available in either clear or opal
- The body is made from high impact acrylic (PMMA)
- Resistancy to atmospheric pollution and hydrocarbon properties allow for maximum lifelong performances
- Includes gallery for pillar mounted installations, accessories for pole and wall/arm mounted installations are available separately
- The varying lengths of poles available make way for personalised installations
- Available in 250, 300 and 400 millimetre diameters
- Can be installed on normally flammable surfaces
- Class 2
- IP 44
