

Neon flex

Round duralight

NEW!! Tapelight

Square duralight

Colour changing ropelight

Scale 1:1

- Range of ropelight and tapelight for outdoor or indoor use
- The body of the DURA ropelight system is made in highly flexible UV stabilised PVC
- The ropelight/tapelight systems consists of:
 - **LED lighting**
 - **LED Tapelight**
Available in warm white and natural white with a body in UV stabilised PVC
 - **Colour Changing ropelight**
RGYB colour changing ropelight(fig.1) that includes accessories, requires a controller(see accessories)
 - **LED Neon flex**
The Neon flex range is available in white, one special feature of this ropelight is that it uses a special formula of PVC that has a more balanced heat dissipation level
 - **Duraflex - mini flat**
This version is available in
- four colours yellow, red, green, blue and has a lamp life of 50000-100000hrs. 230V or 12V options available
- Xenon lighting**
- **Duralight-round fixing**
This version is available in 4 colours opaque white, red, green, blue and has a lamp life of 25000hrs
- **Duralight-square fixing**
As with the round fixing duralight the square version is also available in opaque white, red, green, blue and has a lamp life of 25000hrs
- Can be installed on normally flammable surfaces
- Class 2
- IP 44
