

- Range of ropelight for outdoor or indoor use
- The body of the DURA ropelight system is made in highly flexible UV stabilised PVC
- The DURA ropelight system consists of:
 - *Duraflex - mini flat*
This version is available in five colours white, yellow, red, green, blue and has a bulb life of 50000-100000hrs. 230V or 12V options available
 - *Duralight-round fixing*
This version is available in 4 colours opaque white, red, green, blue and has a lamp life of 25000hrs
 - *Duralight-square fixing*
As with the round fixing duralight the square version is also available in opaque white, red, green, blue and has a lamp life of 25000hrs
 - *LED Neon flex*
The Neon flex range is available in white, one special feature of this ropelight is that

- it uses a special formula of PVC that has a more balanced heat dissipation level
- *Colour Changing ropelight*
RGYB colour changing ropelight(fig.1) that includes accessories, requires a controller(see accessories)
- Can be installed on normally flammable surfaces
- Class 2
- IP 44
